What the symbols mean

Search and Edit the phonebook

Store a number in the memory

Recall/Flash function

Re-dial the last number called, or insert a pause in the number being put into memory

Flashes to indicate incoming call or Message Waiting

Enter the Settings menu or hold call with music

Scroll up the unanswered calls list

Scroll down unanswered calls list

M1....M4
:
:
M5....M8

Memory buttons.
One 16-digit number can be stored at each button

Delete function in search incoming/pre-dialling/memory store or timer in talking mode

Adjust LCD contrast or DND function

Dial or Auto redial

Handsfree function

Adjust the loudspeaker volume

Disable or enable the handset microphone (Mute)

About the display

The display consists of two rows of 16 digits. If more than 16 numbers are entered, they are shifted left so that only the last 16 are shown.

Answering a call

Lift the handset or press  to answer the call.

If the caller number is available it will be displayed. If not, six dashes will be displayed.

Transferring a call

During a conversation, press **R** and dial another number.

After the 3rd party has answered the call, replace the handset or press .

The call is now transferred to the 3rd party.

Inquiry

During a conversation, press **R** and dial another number.

After the 3rd party has answered the call, you can retrieve the call by pressing the **R** button.

Making a call using the handset

Lift the handset

Dial the number

You can turn the loudspeaker on and off by pressing . The LED indicator by the symbol is lit when the loudspeaker is on.

At the end of the call replace the handset to release the line

Making a call hands-free

Press 

Dial the number

At the end of the call press  to release the line

Making a call using a number from memory

Lift the handset or press 

To get the **first** number, just press the memory button **M1..M8**

To store a number in memory (16 digits or less)

Lift the handset or press 

Note: One 16 digit numbers can be stored under each memory button.

Press  and dial the number

Then the memory button M1..M8

Note: For some calls you may need to wait for a second dialling tone before the number is called. In these cases insert a pause in the number by pressing . If one pause is not enough to get the line, insert extra pauses. However, take note that the number in memory cannot be more than 16 digits long and that each pause counts as a digit.

Storing and using numbers that are longer than 16 digits

Explanation:

The maximum length of a number that can be stored in memory is 16 digits. In some cases however, the length of a number together with its access code, dialling code and pause digits may exceed this length.

A number longer than 16 digits can be stored in the memory by using two (or more) locations to hold the complete number.

Note: Numbers used for re-dial can be up to 32 digits.
When calling the number you need to dial the separate parts in sequence.

Checking for unanswered calls

A flashing 'NEW' led indicates that there are new unanswered calls.

Press  or  to view the numbers of the unanswered calls.

Scroll through the list by using the  (scroll up) and  (scroll down) keys.

Press  to exit the callers list.

Only unanswered calls with a maximum of 16 digits are available in the list.

Dialling an unanswered call

Press  or  to view the numbers of the unanswered calls.

Scroll through the list by using the  (scroll up) and  (scroll down) keys

Press  to call the selected number.

Note: After the selected extension is called, the number is cleared from the list.

Storing an unanswered call in memory

Press  or  to view the numbers of the unanswered calls.

Scroll through the list by using the  (scroll up) and  (scroll down) keys

Select the number that should be stored.

Press  followed by the memory button M1..M8

Only unanswered calls with a maximum number length of 16 digits can be stored.

To re-dial the last number called

Lift the handset or press 

Press /P

To disable the microphone in the handset (Mute)

Press 

Whatever you say now cannot be heard by the other party. The LED indicator by the symbol is lit when the mute function is on.

The  button has a toggle action, pressing the button again restores the microphone in the handset or handsfree.

Note: You can also disable the handset microphone by pressing the pushbutton on the handset itself.

The status of the  button (on or off) continues if you change the speaking mode. When the line is released the Mute function is turned off.

To check the duration of a call

When you have finished dialling, press 

Elapsed time will count up on the display.

If you forget to start the timer it will begin automatically 6 seconds after the last digit is dialled.

At the end of a call, the display shows the call duration for a few seconds after the end of the call.

To adjust the loudspeaker volume

Move the slider you will find on the right side of the phone, under the symbol

To check for messages

Check the indicator beneath the symbol

If lit, a message is waiting for you

To disable ringer

In order to mute the ringer press /X for 3 seconds, the display will show "UNCALL 00~30".

Pressing /X adds 30 minutes to the setting (max 23 hours 30 mins). Whilst set ring and alarm are silenced. The setting is cancelled at end of timer or by going off-hook.

Phone Book

In on-hook mode, press , LCD displays "EDIT SEARCH", press  to enter to edit; press  to enter to search.

Pressing  or going off-hook exits phone book.

BOOK EDIT

Press  +  to enter to book editing mode. LCD displays "INPUT NAME".

Input name by pressing keys "2-9" to select the required character, "0" = blank;

When the required character is blinking, press "0" to confirm and input next character.

When complete press  to confirm.

(If no name has been input, press  to input number, this will be a number in book without name during book search). LCD displays "INPUT NUMBER", input the number and press  to confirm and move to next book entry.

Press  or  to move the cursor left or right in book edit mode, insert

character or digit. Press   to backspace, if the cursor is on the left of the character, press   to erase the character on the right of cursor.

If the book is full (12 entries), LCD displays "MEMORY FULL", and no further entries can be made.

SAVE INCOMING CALL TO BOOK

Search the incoming call number required to save, when located, press  key. LCD displays "INPUT ADDR".

Press  key.

LCD displays number and name.

Press  to confirm the name, and press  again to confirm number;

If the incoming call number does not contain name, LCD displays number and "INPUT NAME", press  to skip name, press  again to confirm number and move to next book entry.

SEARCH BOOK

Press  +  to enter book search.

Press  or  to search up or down;

In searching mode, enter the initial character to search book;

Press "0" to search the last saved number without name,

press Press  or  to search up or down.

DELETE OR EDIT BOOK ENTRY

In search book mode, find the entry to be erased or edited:

to erase press   twice, LCD displays "DEL ONE" and entry is erased;

or, press  to edit the entry, name can be edited first and then number.

DIAL FROM BOOK

In search book mode, locate the required entry, press  to dial the number.

During installation settings can be made to adjust the language, LCD Contrast, time and date, Local code, Long Prefix, Ext. Prefix, Alarm, Ring Melody, Flash Time, Pause Time, Dialling Mode and Parallel setting.

In on-hook mode, press “SET/HOLD” key to enter settings mode, the LCD will display the selections. Pressing the “UP” or “DOWN” key scrolls through the items and pressing “SET/HOLD” key again confirms the selection and enter the next available setting. The settings mode can be exited at any time by pressing the “DELETE/TIME” key to, or by not selecting any key for 30 seconds.

The settings menu is as follows:

Language
English, Francais, Espanol,
Portugues, Polish, Italiano,
Svenska, Deutsch, Nederlands,
Turkce

LCD Contrast
1 to 7 (3 = default)

Date/Time

Local Code
Enter up to 5 digits(0~9)

Long Prefix
Enter up to 5 digits (0~9)

Ext. Prefix
Enter up to 3 digits (0~9, P)

Alarm
Up to 3 alarms can be set (if
USB power not connected no
beep is output)

Ring Melody
01~17 (if USB power not
connected only 1~4 is available)

Flash
100/270/300/600/1000mS

Pause
1/2/3/4 seconds

Tone/Pulse
Tone/Pulse dialling

Parallel

Allow/Forbid parallel telephoen
from dialling.

Additional settings can be made
by selecting the switches
situated beneath the memory
label.

These switches define Message
waiting type and recall type,
they can be set as:

Message Waiting:

Reverse Polarity/
High Voltage/Off

Recall type:

Earth recall or Timed
Break Recall

Notice to the user

The terminal described in this manual should only be connected to a private telecommunication system supplied by NEC Nederland B.V. The terminal should only be connected to this system by means of the cables that come with the product. To take advantage of all features described in this manual, country and network provider specific features should match the features of the private telecommunication system.

Declaration of conformity

PRODUCT DISPOSAL INFORMATION (UK)

For countries in the European Union

The symbol depicted here has been affixed to your product in order to inform you that electrical and electronic products should not be disposed of as municipal waste.

Electrical and electronic products including the cables, plugs and accessories should be disposed of separately in order to allow proper treatment, recovery and recycling. These products should be taken to a designated facility where the best available treatment, recovery and recycling techniques are available. Separate disposal has significant advantages: valuable materials can be re-used and it prevents the dispersion of unwanted substances into the municipal waste stream. This contributes to the protection of human health and the environment.

Please be informed that a fine may be imposed for illegal disposal of electrical and electronic products via the general municipal waste stream.

In order to facilitate separate disposal and environmentally sound recycling arrangements have been made for local collection and recycling. In case your electrical and electronic products need to be disposed of please refer to your supplier or the contractual agreements that your company has made upon acquisition of these products.

At <https://www.nec-enterprise.com/Support/WEEE-934> you can find information about separate disposal and environmentally sound recycling.

For countries outside the European Union

Disposal of electrical and electronic products in countries outside the European Union should be done in line with the local regulations. If no arrangement has been made with your supplier, please contact the local authorities for further information.

INFORMATIONEN ZUR PRODUKTBESEITIGUNG (DE)

Für Länder in der Europäischen Union

Das abgebildete Diagramm soll deutlich machen, dass elektrische und elektronisch Produkte nicht im normalen Hausabfall entsorgt werden dürfen.

Electrical Elektrische und elektronische Produkte, inklusive Kabel, Stecker und Zubehör, müssen separat beseitigt werden, damit die richtige Entsorgung, Wiederherstellung oder Recycling gewährleistet werden kann. Bringen Sie deshalb solche Produkte zu einer speziellen Entsorgungsstelle, die eine fachgerechte Entsorgung, Wiederherstellung oder Recycling sicherstellen kann. Separate Beseitigung hat entscheidende Vorteile: Bestimmte Materialien werden wiederverwendet und die Verbreitung von ungewünschten Stoffen in der gewöhnlichen Abfallbeseitigung kann verhindert werden. Damit wird ein Beitrag zum Schutz der allgemeinen Gesundheit und Umwelt geleistet.

Bitte beachten Sie, dass das illegale Beseitigen von elektrischen und elektronischen Geräten im normalen Hausmüll, eine Strafe nach sich ziehen kann.

Um bei der separaten Beseitigung von elektrischen und elektronischen Produkten behilflich zu sein und um ein umweltfreundliches Recycling zu ermöglichen, hat NEC Nederland B.V. in allen Mitgliedsstaaten der Europäischen Union Vereinbarungen getroffen, die ein lokales Einsammeln und Recycling ermöglichen. Im Falle der Entsorgung Ihrer elektrischen und elektronischen Produkte, beachten Sie bitte die vertraglichen Vereinbarungen mit Ihrem Unternehmen beim Kauf dieser Produkte. Sollte diese Information nicht verfügbar sein, wenden Sie sich bitte an Ihre lokale NEC Nederland B.V. Organisation oder kontaktieren uns unter <https://www.nec-enterprise.com/Support/WEEE-934>.

Für Länder außerhalb der Europäischen Union

Bei der Entsorgung von elektrischen und elektronischen Geräten in Ländern außerhalb der Europäischen Union beachten Sie bitte lokal geltende Vorschriften. Im Falle fehlender Vereinbarungen zwischen Ihrem Lieferanten und NEC Nederland B.V. wenden Sie sich bitte an lokale Behörden für weitere Informationen.

PRODUKT BORTSKAFFESESINFORMATION (DA)

For lande i den Europæiske Union

Det her viste symbol er anbragt på produktet for at informere om, at affald af elektrisk og elektronisk udstyr ikke må bortskaffes sammen med usorteret kommunalt affald.

Elektrisk og elektronisk udstyr inklusive kabler, stik og tilbehør skal bortskaffes separat for at få den rette behandling, genindvinding og genanvendelse. Disse produkter skal bringes til en dertil egnet facilitet, hvor den bedst muligt behandlings, genindvindings og genanvendelses teknik er til rådighed. Separat bortskaffelse har betydelige fordele: Den forhindrer spredning af uønskede substanser i den kommunale affaldsstrøm, og er således medvirkende til at beskytte miljøet og mennesker mod sundhedsfare.

Vær venligst opmærksom på, at man kan blive pålagt en bøde ved ulovlig bortskaffelse af elektrisk og elektronisk udstyr, sammen med usorteret husholdningsaffald.

For at sikre separat bortskaffelse og miljømæssig fornuftig genbrug, er der lavet arrangementer til lokal indsamling og genanvendelse. I det tilfælde dine elektriske og elektroniske produkter skal bortskaffes, så referer venligst til din leverandør eller den kontraktlige overenskomst din virksomhed har tegnet i forbindelse med erhvervelse af disse produkter.

På <https://www.nec-enterprise.com/Support/WEEE-934> findes information om separat bortskaffelse og miljømæssig fornuftig genbrug.

For lande udenfor den Europæiske Union

Bortskaffelse af elektriske og elektroniske produkter i lande udenfor den Europæiske Union, skal ske i overensstemmelse med lokale regulativer. Hvis der ikke er lavet nogen aftale med din leverandør, så kontakt venligst den lokale myndighed for mere information.

INFORMACIÓN SOBRE ELIMINACIÓN DE PRODUCTOS (ES)

Para países pertenecientes a la Unión Europea

La imagen representada aquí ha sido adherida al producto para informarle que los dispositivos eléctricos y electrónicos no deben ser nunca eliminados como basura convencional.

Los productos eléctricos y electrónicos, incluyendo cables, enchufes y accesorios, deben ser eliminados separadamente de forma que puedan recibir el tratamiento adecuado para su destrucción o reciclaje y deben ser depositados en las instalaciones designadas para ello. La selección de residuos tiene ventajas significativas: los materiales útiles pueden ser reciclados y se previene la dispersión de sustancias no deseadas en la cadena de reciclaje municipal, lo cual contribuye a la protección de la salud humana y del medio ambiente.

Le informamos que la eliminación de residuos de productos eléctricos o electrónicos a través del sistema municipal de recogida de basuras puede acarrear multas.

Para poder facilitar la recolección de residuos y su posterior reciclaje, se ha llegado a acuerdos para la recolección y reciclaje local en todos los países miembros de la Unión Europea. En caso de que deba deshacerse de alguno de sus productos eléctricos o electrónicos le rogamos compruebe los acuerdos contractuales que su compañía ha hecho en el momento de la adquisición de dichos productos.

Puede encontrar toda la información acerca de la recolección de residuos y su posterior reciclaje en la dirección <https://www.nec-enterprise.com/Support/WEEE-934>.

Para países no pertenecientes a la Unión Europea

La eliminación de productos eléctricos o electrónicos en países no pertenecientes a la Unión Europea debe ser realizada de acuerdo a la normativa local. Si no existe ningún acuerdo con NEC Nederland B.V. o con su distribuidor local, le rogamos contacte con las autoridades locales para obtener más información.

INFORMATION SUR L'ENLÈVEMENT DU PRODUIT (FR)

Pour les pays de la Communauté Européenne

Le symbole ci-contre est placé sur votre produit pour vous informer de ne jamais jeter parmi les déchets municipaux les produits électriques et électroniques.

Les produits électriques et électroniques incluant les câbles, fiches et autres accessoires devraient être jetés séparément afin de permettre son propre traitement, récupération et recyclage. Ces produits seront emportés vers un établissement désigné, qui dispose des meilleures techniques pour le traitement, récupération et le recyclage. Le tri des déchets a des avantages significatifs: les matériaux coûteux peuvent être recyclés, on évite ainsi la dispersion de substances indésirables dans les systèmes de déchets municipaux. Tout cela contribue au respect de la santé et de l'environnement.

Soyez informé qu'une amende peut être imposée pour dépôt illégal des produits électriques et électroniques par la section générale des déchets municipaux.

Pour vous faciliter le tri des déchets dans le cadre du respect de l'environnement, des dispositions ont été prises pour la collecte locale et le recyclage. Dans le cas où vos produits électriques et électroniques doivent être enlevés, vous êtes priés de consulter votre fournisseur ou le contrat relatif à l'acquisition de ces produits.

Vous pourrez trouver des informations quant au tri sélectif et au recyclage sur <https://www.nec-enterprise.com/Support/WEEE-934>

Pour les pays en dehors de la Communauté Européenne

L'enlèvement des déchets électriques et électroniques doit être fait selon les règles locales en vigueur. S'il n'y a pas d'arrangement avec NEC Nederland B.V. ou votre fournisseur, vous êtes priés de contacter les autorités locales.

INFORMAZIONE PER LO SMALTIMENTO DEI PRODOTTI (IT)

Per le nazioni nell'Unione Europea

Il simbolo qui rappresentato è stato apposto sul vostro prodotto per potervi informare che i prodotti elettrici ed elettronici non dovrebbero essere depositati nel generico bidone immondizie.

Prodotti elettrici ed elettronici, inclusi cavi, connettori ed accessori dovranno essere depositati separatamente in modo da trattarli secondo il loro corretto recupero e riciclaggio. Questi prodotti dovranno essere portati in specifiche zone dove saranno disponibili appropriati servizi di trattamento, recupero e riciclaggio. La raccolta separata presenta importanti vantaggi: previene l'involontaria dispersione di sostanze nelle acque correnti, con il risultato di contribuire alla protezione della salute dell'uomo e dell'ambiente.

Per vostra informazione, potrebbe essere imposta una multa dal gestore delle acque interne in caso di raccolta illegale di prodotti elettrici ed elettronici.

Con l'intento di facilitare la raccolta differenziata ed il sano riciclo ambientale, sono state predisposte apposite regole locali. Nel caso in cui i vostri apparati elettrici ed elettronici debbano essere smaltiti, fate riferimento al vostro fornitore o agli accordi contrattuali che la vostra azienda ha stipulato durante l'acquisto di tali prodotti.

Sul sito <https://www.nec-enterprise.com/Support/WEEE-934> potete trovare tutte le informazioni necessarie sulla raccolta differenziata ed il sano riciclo ambientale.

Per le nazioni fuori dall'Unione Europea

Disposizioni riguardanti materiale elettrico ed elettronico nelle nazioni al di fuori dell'Unione Europea devono essere in accordo con le regole locali. Nel caso in cui non siano stati presi accordi con il vostro fornitore, potete contattare le autorità locali per maggiori informazioni.

INFORMATIE OVER AFVAL VAN PRODUCTEN (NL)

Voor lidstaten van de Europese Unie

Het afgebeelde symbool is op uw product aangebracht om u te informeren dat afval van elektrische en elektronische producten niet bij het huisvuil mag terechtkomen.

Elektrische en elektronische producten, inclusief de aansluitkabels, stekkers en accessoires moeten apart worden ingezameld zodat dit afval op een verantwoorde manier kan worden verwerkt. Deze producten moeten worden ingeleverd bij speciale inzamelpunten waar milieu verantwoorde recycle technieken worden toegepast. Aparte inzameling heeft grote voordelen: waardevolle materialen kunnen worden hergebruikt en het voorkomt de verspreiding van ongewenste stoffen in het milieu. Dit draagt direct bij aan de bescherming van mens en milieu.

Let op: het ontdoen van afval van elektrische en elektronische producten via het huisvuil kan worden bestraft met een boete.

Voor de milieuvriendelijke inzameling en verwerking van elektrische en elektronische producten zijn afspraken gemaakt met afvalverwerkings-bedrijven. Raadpleeg hier voor uw leverancier of lees de contractuele afspraken na die met uw bedrijf zijn gemaakt bij aankoop van het product.

Op <https://www.nec-enterprise.com/Support/WEEE-934> kunt u informatie vinden omtrent inzameling en verwerking.

Voor landen buiten de Europese Unie

Afval van elektrische en elektronische producten in landen buiten de Europese Unie moet worden behandeld in overeenstemming met de lokale wetgeving. Indien geen regeling overeengekomen is met uw leverancier, neem dan contact op met de lokale autoriteiten voor meer informatie.

INFORMAÇÃO DE ELIMINAÇÃO DE PRODUTOS (PT)

Para países da União Europeia

O símbolo aqui apresentado foi afixado no seu produto para o informar que produtos eléctricos e electrónicos não devem ser eliminados como lixo municipal.

Os produtos eléctricos e electrónicos incluindo cabos, fichas e acessórios devem ser separados do lixo normal para permitir o seu tratamento adequado, recuperação e reciclagem. Estes produtos devem ser enviados para instalações especiais para serem tratados da melhor maneira possível, e recuperados e reciclados com as técnicas disponíveis. A eliminação por triagem tem vantagens significativas: evita a dispersão de substâncias não desejadas no fluxo de lixo municipal contribuindo assim para a protecção da saúde humana e do ambiente.

Por favor tenha em consideração que a eliminação ilegal de produtos eléctricos e electrónicos no fluxo de lixo municipal está sujeita a multa.

De modo a facilitar a eliminação selectiva e a reciclagem ambiental, foram criadas estruturas para a recolha local e reciclagem. No caso de produtos eléctricos e electrónicos que necessitem de ser eliminados, por favor consulte o seu fornecedor ou as condições contratuais estabelecidas a quando da aquisição desses produtos.

Em <https://www.nec-enterprise.com/Support/WEEE-934> pode encontrar informação sobre eliminação selectiva e reciclagem ambiental.

Para países fora da União Europeia

A eliminação de produtos eléctricos e electrónicos em países fora da união europeia deve ser feita de acordo com as normas locais. Caso não exista um acordo com o seu fornecedor, por favor contacte as autoridades locais para mais informação.

AVFALLSINFORMATION (SV)

Union För länder inom den Europeiska Unionen

Er produkt har blivit märkt med symbolen avbildad till vänster för att informera er om att elektriska och elektroniska produkter aldrig får kasseras bland hushållsavfall.

Elektriska och elektroniska produkter inklusive kablar, stickkontakter och tillbehör skall sopsorteras så att kassering, återvinning och återanvändning kan ske på vederbörligt sätt. Dessa produkter skall återföras till avsedd inrättning där bästa möjliga teknik för återanvändning och återvinning finns tillgänglig. Sopsortering har väsentliga fördelar: det förebygger spridning av oönskade ämnen i den kommunala avfallshanteringen och som ett resultat av detta bidrar sopsortering till att skydda människors hälsa och miljön.

Notera att olaglig avfallshantering via den allmänna kommunala avfallshanteringen kan innebära utdömande av böter.

För att underlätta sopsortering och miljövänlig återvinning har åtgärder vidtagits för lokal insamling och återvinning. I de fall era elektriska eller elektroniska produkter måste kasseras, hänvisas ni till de överenskommelser som ert företag tecknat då dessa produkter förvärvats.

På <https://www.nec-enterprise.com/Support/WEEE-934> kan du hitta information om sopsortering och miljövänliga återvinningsåtgärder.

För länder utanför den Europeiska Unionen

Avfallshantering av elektriska och elektroniska produkter i länder utanför den Europeiska Unionen skall ske i enlighet med de lokala föreskrifterna. Om inget avtal är tecknat med den egna leverantören, vänligen kontakta den lokala myndigheten för vidare instruktioner.
