

Plastic HDMI to AV converter

HDCAV02-M

This plastic HDMI to AV converter can convert HDMI digital signal to AV (CVBS) composite video signal and FL/FR stereo audio signal. It can convert high quality HDMI video signal to normal CVBS signals (standard-definition 480i,576i) which can be received by TV, VHS VCR players, DVD recorder. Also, it can support NTSC and PAL two standard formats. Tips: It cannot support DTS and RAW codes.

Features:

- No need to install drivers, plug and play
- By pressing “PAL/NTSC” switch on the converter, you can easily change the format between NTSC and PAL
- Support full format output (NTSC, PAL)

SPECIFICATION

HDMI input format	480i/60Hz, 480p/60Hz,576i/60Hz, 576p/60Hz, 720p50/60Hz, 1080i50/60Hz, 1080p50/60Hz
AV output	CVBS(1.0Vpp) 、 S-Video(Y:1.0Vpp、 C:0.3Vpp)
Output video format	PAL/NTSC
Output video signal impedance	75Ohm
Max working current:	320mA
Power supply	Need DC 5V/1A
Dimension (L x W x H):	70*65.8*20.2mm
Net weight:	40g
